ALESSIO CAVALLINO

EDUCATION & PROJECTS CONTINUED

Projects:

- **Project #1:** [Gazetteer](#)
Develop a map-based application in HTML, CSS, JavaScript (jQuery) and Bootstrap presenting geographical and demographic data from JSON returned by PHP modules that query third-party APIs such as GeoNames and OpenWeather.
- **Project #2:** [Company Directory](#)
Full project cycle: Formal proposal followed by the development of a company personnel database application using Bootstrap, JavaScript (jQuery), PHP and MySQL. Sign off obtained after demonstrating that all of the required functionality was present and working as intended through the preparation of a formal test script.

Master in Digital Effects - Bournemouth University, UK | 2017 - 2018
